

Signature S2S[®]

High Performance Panel

Our Story: A Focus on Leadership

For more than 40 years, we have supplied high quality industrial panels to OEM and industrial product companies around the globe. Known for its unparalleled smooth surface on both sides, Signature S2S has become the standard in wood-based substrates.

INDUSTRIAL PANELS

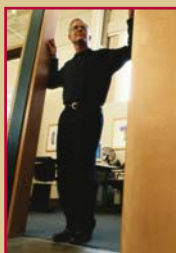

Core Quality & Innovation

Core Quality

Our solid hardboard manufacturing facility located in Alpena, Michigan, features state-of-the-art product development and manufacturing processes that assure a flawless foundation for any product. Starting with an excellent Forest Management Program through the hardboard manufacturing process, the Alpena Plant provides high quality and value to its customers.

Innovative Finishing

For over 25 years, our finishing facility in Toledo, Ohio, has been recognized industry-wide as the leader in design, coating capabilities and product innovation.
